Life Events During the Year

When you pay for your insurance using pre-tax dollars, you can **ONLY** change your coverage outside of our annual enrollment period if you experience an eligible status change consistent with current IRS regulations. An eligible change includes the following.

- Birth, adoption, or the placement of a child for adoption
- Marriage
- Divorce or legal separation
- Death of a dependent
- A dependent's losing or gaining eligibility
- A change in employment status for you or your spouse
- You or your spouse enrolling in Medicare or Medicaid
- A court order requiring you to cover an eligible dependent
- Significant reduction of hours such as full-time to part-time (under 30 hours weekly)

Any change in coverage must be consistent with your eligible status change. For example, if you have a baby, you may add your child to your medical coverage. However, you may not remove your spouse from coverage because of the birth of your child.

You will have 31 days from the date of the status change to change your benefits. If you miss the deadline, your next chance to make any changes will be during the next annual enrollment period.

If you waive medical coverage for yourself or your eligible dependents because you have coverage under another plan, you can elect coverage at a date other than the next annual enrollment period. You must enroll within 31 days of losing your coverage or acquiring a new dependent because of marriage, birth, or adoption. You must provide proof of the loss of your other coverage. You can enroll yourself or any of your eligible dependents under any medical plan or coverage level normally available to you.

Associate Choice Plan

All full-time employees working 20 hours or more per week are eligible to purchase the Associate Choice Plan. You can choose from two plans administered through Bay Bridge Administrators, a partner of Humana.

Both Associate Choice Plans include preventive care benefits which cover 100% of your preventive care services charges when performed by an in-network provider. In addition to preventive care services, both Associate Choice Plans include the following types of benefits. The level of benefits depends on which plan you choose.

- Daily hospitalization
- Surgical benefits
- Emergency room
- Physician office visits
- Critical illness
- 24-hour telemedicine
- Prescription medications

How Associate Choice Plans Work?

Preventive Care

Both Associate Choice plans provide complete coverage for preventive care at no cost to you. Preventive care covers services such as physical exams, well child care, immunizations, screening mammograms, and PSA tests along with many other services to keep you healthy. For a list of preventive care services which are covered by the plans, visit <https://www.healthcare.gov/preventive-care-benefits/>.

You must provide your Multiplan/PHCS network ID card at the time of your appointment, which is the same card as the Bay Bridge ID card. As long as you are using a participating provider and obtaining preventive care services only, you should not have to pay out of pocket.

If you are already sick, or have a health problem which needs to be diagnosed, the benefits are listed in the chart on the next page titled "Schedule of Benefits." It is important to note your plan only covers preventive care services at 100%.

To locate a participating provider for preventive care services, visit www.multiplan.com and follow the steps below.

1. Select "Search for a Doctor or Facility"
2. Select PHCS Network and click "Go"
3. Select "Doctor" or "Facility" and click "Continue"
4. Enter your ZIP Code and/or type of doctor you wish to see, then click "Continue" (doctors who specialize in internal medicine or family practice perform many of the preventive services covered under your plan)
5. Select one of the doctors listed in your area
6. You must provide your Multiplan/PHCS network ID card at the time of your appointment

Medical Treatment

If you are sick, injured, or need treatment, the plan provides cash reimbursement for certain services as outlined in the above schedule of benefits. For covered non-preventive care treatment, you will have to pay for the services out-of-pocket and file a claim through Bay Bridge to obtain reimbursement as outlined in the above schedule of benefits. Please note benefit reimbursement levels vary based on whether you select base plan or plus plan, and not all services are covered for reimbursement. Additionally, you will have access to a telemedicine program and a prescription discount plan which are described later in this booklet.

Telemedicine Program

Included in both Associate Choice Plans are telemedicine benefits available through www.1800MD.com or call **800.530.8666**. 1.800MD provides individuals with fast and convenient access to quality medical care 24 hours a day, 7 days a week, and 365 days a year throughout the United States. This service is available during and after normal business hours from home, office, or during travels.

1.800MD saves you valuable time and money. Medical consultations are conducted by board certified, fully credentialed and licensed physicians who diagnose illnesses, recommend treatment and prescribe medications to its members over the telephone, through secure email and video.

In most cases, 1.800MD is perfect for treatment of the following.

- Certain rashes
- Cold/flu
- Gastroenteritis
- Headache/migraine
- Insect bites
- Sprains/strains
- Respiratory infections
- Stomachache/diarrhea
- Sore throat
- Urinary tract infections
